Education

Lakshmi Narain College of Technology (LNCT), Bhopal

Sep. 2023 – May 2027

Bachelor of Technology in Computer Science and Engineering

CGPA: 8.90/10

- **Coursework:** Data Structures & Algorithms, DBMS, Object-Oriented Programming, Operating Systems, Computer Networks, Design & Analysis of Algorithms

Experience

PricewaterhouseCoopers (PwC)

Feb. 2026 – June 2026

Launchpad Program Participant

India (Remote)

- Selected for PwC's Launchpad Program, gaining exposure to **emerging technologies**, professional development, and industry best practices.
- Applied **Java programming** and **web development** fundamentals to implement interactive applications, reinforcing software engineering and coding best practices.
- Leveraged fundamental Generative AI concepts and core Cybersecurity principles to develop secure and responsible applications.

Projects

AlgoQuest Visualizer | *HTML, CSS, JavaScript, React.js, p5.js* | GitHub

- **Engineered** an interactive algorithm visualizer with real-time animations, integrating an AI-powered chatbot to answer user queries and dynamically explain algorithmic logic.
- Designed graph data structures, implemented traversal algorithms, optimized canvas-based rendering, and integrated event-driven UI interactions to enhance algorithm learning and user experience.

Nexus Chat | *React.js, JavaScript, Node.js, Express.js, MongoDB, Socket.IO* | GitHub

- **Developed** a full-stack real-time chat application supporting private and group messaging using **Socket.IO**, enabling low-latency bidirectional communication for multiple concurrent users.
- Built RESTful APIs using Node.js and Express.js, integrating MongoDB for efficient storage and retrieval of user and chat data.

Technical Skills

Programming Languages: Java, JavaScript

Technologies/Frameworks: HTML, CSS, Node.js, Express, React, REST API's, Socket.IO, Generative AI

Databases: MongoDB, MySQL

Developer Tools: Git, GitHub, Visual Studio Code

Achievements

- **Selected** as a contributor in **JWOC (JUCE Winter of Code 2025)** for consistent open-source contributions, and completed the program with certification.
- **Participated in Flipkart Grid 6.0**, gaining hands-on experience in solving real-world engineering and problem-solving challenges.
- **Participated in Smart India Hackathon (SIH)**, collaborating with a team to develop an innovative solution for a real-world problem.
- **Solved 400+ problems** on **LeetCode**, demonstrating strong analytical thinking, problem-solving expertise, and proficiency in data structures and algorithms.
- **Achieved Silver Badge** in Problem Solving on **HackerRank**, reflecting consistent algorithmic practice.

Extracurricular

- **Awarded the Reliance Foundation Scholarship**, a merit-based scholarship recognizing academic excellence among engineering students across India.
- **Team Collaboration:** Collaborated effectively on team projects, strengthening communication, problem-solving, and project management skills.
- **Public Speaking:** Delivered technical presentations, enhancing communication, confidence, and presentation skills.
